## COMMUNITY RUMMAGE SALES

Friday, May 10th & Saturday, May 11th 2024

The Village of Coleman will host the Community Rummage Sales again this year. An ad will be posted in the paper for the dates of the sale. You will need to complete an application and return it to the Coleman Municipal Office. More information will follow. Watch the Peshtigo Times and Village of Coleman Facebook Page. If you have any questions, please call the Municipal Building at 920-897-2234.

## What is the Public Fire Protection Charge?

This charge is required by State law and regulated by the State of Wisconsin's Public Service Commission. It recovers the cost of water for fighting fires and the extra capacity built into the system to rapidly deliver a large volume of water to fight a fire anywhere within the Water Utility's service area. These costs include a portion of wells, pumps, storage facilities, water mains, hydrants, and an estimated quantity of water used for this purpose.

## Waste Water Treatment Plant

Our current WWTP was built in 1981 with a 20-year design capacity that has been exceeded by an additional 23 years due in large part to the conscientious efforts of our DNR certified Wastewater Operators. However, due to the strict mandates of the State, the Village must make upgrades to the existing plant with an estimated cost of \$3.5 million. We did receive a grant to help with some of the cost. Construction is scheduled to begin this fall.
